

## Consumer Product Safety Commission

## § 1000.31

and benefits of CPSC actions as required by the Consumer Product Safety Act, The National Environmental Policy Act, the Regulatory Flexibility Act and other Acts, and by policies established by the Consumer Product Safety Commission. The Directorate manages hazard assessment and reduction projects as assigned.

[56 FR 30496, July 3, 1991. Redesignated at 59 FR 66673, Dec. 28, 1994, and further redesignated at 64 FR 66579, Nov. 29, 1999]

### § 1000.30 Directorate for Engineering Sciences.

The Directorate for Engineering Sciences, which is managed by the Associate Executive Director for Engineering Sciences, is responsible for developing technical policy for and implementing the Commission's engineering programs. The Directorate manages hazard assessment and reduction projects as assigned by the Office of Hazard Identification and Reduction; provides engineering technical support and product safety assessments for the Office of Compliance; provides engineering, scientific, and technical expertise to the Commission and Commission staff as requested; and provides engineering technical support to other Commission organizations, activities, and programs as needed. The Directorate develops and evaluates product safety standards, product safety tests and test methods, performance criteria, design specifications, and quality control standards for consumer products, based on engineering and scientific methods. It conducts engineering analysis and testing of the safety of consumer products, and evaluates and participates in the development of mandatory and voluntary standards for consumer products including engineering and human factors analyses in support of standards development and product compliance testing. The Directorate performs or monitors research for consumer products in a broad array of engineering disciplines including chemical, electrical, fire protection, human factors, and mechanical engineering. It conducts and coordinates engineering research, testing, and evaluation activities with other federal agencies, private industry, and consumer interest groups. The Directorate

conducts human factors studies and research of consumer product related injuries, including evaluations of labels, signs and symbols, instructions, and other measures intended to address the human component of injury prevention. The Directorate provides technical supervision and direction of engineering activities including tests and analyses conducted in the field.

[61 FR 1708, Jan. 23, 1996. Redesignated at 64 FR 66579, Nov. 29, 1999]

### § 1000.31 Directorate for Laboratory Sciences.

The Directorate for Laboratory Sciences, which is managed by the Associate Executive Director for Laboratory Sciences, is responsible for implementing the Commission's engineering and health sciences laboratories programs. The Directorate's functional responsibilities include development and evaluation of product safety standards, and product safety tests and test methods, based on engineering and other physical sciences, chemical, and biological sciences to support general agency regulatory activities. The Directorate develops and evaluates performance criteria, design specifications and quality control standards for certain consumer products. It provides engineering, scientific, and technical expertise to the Commission, conducts engineering tests and studies of the safety of consumer products, evaluates industry voluntary standards efforts, and participates in the development of product safety standards. It performs and monitors research and conducts studies of the safety of, or improving the safety of, consumer products in engineering, other physical sciences, chemical, and biological sciences. The Directorate is composed of two divisions, the Engineering Laboratory Division and the Health Sciences Laboratory Division. The Directorate provides engineering and scientific services in support of the Commission's enforcement activities. It coordinates engineering research, testing, and evaluation activities with the National Institute of Standards and Technology and other federal agencies, private industry, and consumer interest groups. It provides the Commission's expertise

## § 1000.32

and laboratory support to other laboratories and other chemical and biological testing facilities. It provides chemical and biological laboratory support to all Commission organizations, activities, and programs. The Directorate provides technical supervision and direction of engineering activities including tests and analyses conducted in the field.

[59 FR 66674, Dec. 28, 1994]

### § 1000.32 Directorate for Administration.

The Directorate for Administration, which is managed by the Associate Executive Director for Administration, is responsible for formulating general administrative policies supporting the Commission in the areas of financial management, procurement, and general administrative support services including property and space management, physical security, printing, and warehousing. The Directorate is responsible for the payment, accounting, and reporting of all expenditures within the Commission and for operating and maintaining the Commission's accounting system and subsidiary Management Information System which allocates staff work time and costs to programs and projects.

[61 FR 1708, Jan. 23, 1996]

### § 1000.33 Directorate for Field Operations.

(a) The Directorate for Field Operations, which is managed by the Associate Executive Director for Field Operations, has direct line authority over all Commission field operations; develops, issues, approves, or clears proposals and instructions affecting the field activities; and provides a central point within the Commission from which Headquarters officials can obtain field support services. The Directorate provides direction and leadership to the Regional Center Directors and to all field employees and promulgates policies and operational guidelines which form the framework for management of Commission field operations. The Directorate works closely with the other Headquarters functional units, the Regional Centers, and other field offices to assure effective Head-

quarters-field relationships, proper allocation of resources to support Commission priorities in the field, and effective performance of field tasks. It represents the field and prepares field program documents. It coordinates direct contact procedures between Headquarters offices and Regional Centers. The Directorate is also responsible for liaison with State, local, and other Federal agencies on product safety programs in the field.

(b) Regional Centers are responsible for carrying out investigative, compliance, and consumer information and public affairs activities within their areas. They encourage voluntary industry compliance with the laws and regulations administered by the Commission, identify product related incidents and investigate selected injuries or deaths associated with consumer products, and implement wide-ranging public information and education programs designed to reduce consumer product injuries. They also provide support and maintain liaison with components of the Commission, other Regional Centers, and appropriate Federal, State, and local government offices.

[56 FR 30496, July 3, 1991. Redesignated at 59 FR 66673, Dec. 28, 1994]

## PART 1009—GENERAL STATEMENTS OF POLICY OR INTERPRETATION

Sec.

1009.3 Policy on imported products, importers, and foreign manufacturers.

1009.8 Policy on establishing priorities for Commission action.

1009.9 Policy regarding the granting of emergency exemptions from Commission regulations.

### § 1009.3 Policy on imported products, importers, and foreign manufacturers.

(a) This policy states the Commission's views as to imported products subject to the Consumer Product Safety Act (15 U.S.C. 2051) and the other Acts the Commission administers: The Federal Hazardous Substances Act (15 U.S.C. 1261), the Flammable Fabrics Act (15 U.S.C. 1191), the Poison Prevention Packaging Act (15 U.S.C. 1471), and the Refrigerator Safety Act (15 U.S.C.
